# Kentucky Baptist Nursing Fellowship

*A ministry of Woman's Missionary Union*

## Christian Fellowship

## Service

## Growth

## Christian Fellowship

Baptist Nursing Fellowship was organized nationally in 1983 and in Kentucky in 1987.

BNF offers opportunity for Christian fellowship through organized and regularly scheduled events and meetings. Kentucky BNF meets three times a year...in the spring at the Kentucky WMU annual meeting; the last Saturday in June and in the fall during Women on Mission retreats. Other opportunities may be available throughout the year.

Each event offers health professionals a time to fellowship together as they

- Learn about ministry opportunities and service projects;
- Pray for medical missions and missionaries;
- Make decisions related to BNF; and
- Grow professionally and spiritually.

## Service

Christian medical professionals are called to help others. National and state BNF groups are actively engaged in volunteer missions and ministry activities throughout the year.

Kentucky BNF offers a variety of ministries to fit the personal interests, expertise and gifts of every medical professional. Service across the lifespan...from the unborn to the senior adult...are ministries of BNF.

National activities through MissionsFEST are available several times a year providing an opportunity to network with health professionals across the United States. International service opportunities are also available and made known to members.

Faith Community Nursing (Parish nursing) promotes health wellness in the local church. Information, resources and c.e.u.'s are available through a BNF-FCN consultant.

## Growth

Baptist Nursing Fellowship connects medical professionals together in personal and professional growth through Bible Study and continuing education. During the summer meeting, continuing education units are available for members and non-members.

The fall meetings during retreats allow each member to experience worship, Bible Study, fellowship and a challenge to grow spiritually and toward a missional lifestyle.

Prayer is the key that connects all Christian medical professionals. BNF offers the opportunity through activities, regular communication, and ministry.
